

CAN A NASAL SPRAY LAST ALL DAY? DO BEARS RELIEVE THEMSELVES IN TREE-RICH ENVIRONMENTS?

Well, yes, they do. But something you might not know is there's a hayfever nasal spray that can last all day. Most sprays need topping up during the day but **Flixonase Allergy** is different, as spraying just once can provide unbeatable relief for up to 24 hours. To find out more about **Flixonase Allergy**, nip down to your local pharmacy. Steer clear of the woods, though, you know what those bears are like.

Flixonase Allergy. No hayfever treatment is more effective without prescription.
