

# SOME PEOPLE STILL THINK A NASAL SPRAY CAN'T TREAT ALL HAYFEVER SYMPTOMS. SOME PEOPLE STILL THINK THE EARTH IS FLAT.

Good luck to them I say. But if you like your information, a little more, scientific, there's something you should know. **Flixonase Allergy** is different from most hayfever treatments because of the way it works. It's so powerful it can tackle all your hayfever symptoms, even itchy eyes and groggy head. If you don't believe it ask your pharmacist about **Flixonase Allergy**. Don't fall off the edge of the world on the way.

Flixonase Allergy. No hayfever treatment is more effective without prescription.
